"I can speak highly of the grand effect of Ripans Tabules," says Mrs. B. E. Wood of Sharpsburg, Ky., November 29, 1895. "I was for many years a great sufferer with nervous prostration, and a friend (who had already tested the merits of the Tabules) advised me to try them. I did so, little thinking how much they were going to do for me, but can truly say that they worked a marvelous cure, and I never shall be without them in my house. They are unexcelled for any nervous affection." Editor J. Q. Nelson of the Bath County World. in commenting upon the above, said: "Mrs. Wood was extremely nervous, excitable, did not sleep well, very poor appetite, restless, and she says the Tabules removed all these difficulties. She also suffered with nervous beadache, which is now unknown to her. Her health, she says is better than it has been since

ten years ago." One Gives Relief. Ripans Tabules are sold by druggists, or by mail if the price (50 cents a box) is sent to The Ripans Chemical Company, No. 10 Spruce st., New York. Sample vial, it cents.

RESOLUTIONS OF THANKS

Mrs. Laura B. Holderby, 815 M street northwest, was cured of pulmonary tuberculosis and hemor-rhage of the lurgs in six months by Dr. Shade, lung specialist, 1232 14th street. Read Mrs. Holderby's letter of appreciation and gratitude, which she very prudently withheld outil she was satisfied beyond a doubt that she was Yesterday afternoon the board of trustees of the United Society held its final business session. Having selected convenion cities for two years to come-San Francisco in '97 and Nashville in '95-there was little of importance to engage the rustees' attention.

"Tor. N. B. Shade: As I have derived such permanent benefit from your treatment I wish to thank you openly for same.

"When I began your treatment I wish to thank you openly for same.

"When I began your treatment last March I was not expected to live much longer by physicians and friends. I had thirteen hemorrhages in less than a year. I had been examined by several prominent physicians, each one dingnosing my case tuberculosis of the upper section of my right and the middle section of my left lung.

"I coughed very much day and night, and was so weak I could scarcely get about. I improved stendily under your treatment, and today enjoy good health. A statement from the presidents of state unions was presented, however, which was especially gratifying to the trustees. The paper indorsed heartily the government of the organization as at present conducted. There has been manifest in a small section of the west, it is said, a disposition on the part of an extremely small number steadily under your treatment, and today enjoy good health.
"I shall be delighted to see any one who may wish to interview me after 4 o'clock. My friends feel that my recovery is almost a miracle. Very respectfully, LAURA B. HOLDERBY,
"815 M street northwest."
Write to Dr. Shade, 1232 14th st., Washington D. C., for booklet and symptom blank for "bome treatment." "Consultation free." to agitate in favor of a representative form of government in the society. At present all power over the affairs of the society is vested in the board of trustees and the officers, and the board is self-perpetuating. That this system of government is entirely satisfactory to the overwhelmingly large body of Endeavorers is apparent from the statement prepared and signed by the state union presidents, which is as follows:

State Union Presidents' Statement.

The presidents of various state and provincial unions, or their authorized representatives, after a full and free confererce with the trustees of the United Society, a conference in which the spirit of God was manifestly present in power, believe it to be for the best interests of the cause of Christian Endeavor that they make the statement which follows:

It is our conviction that, generally speak ing, the conduct of the Christian Endeavor meyement has been most wise, and in obedience to manifest providential leadings. The movement has been signally blessed in the self-sacrifice and devotion of those who, under God, originated and have so faithfully served it, as officers and trustees of the United Scalett. of the United Society.
It is our conviction, further, that the officers and trustees have not constituted a ledy assuming legislative functions, or the control of the movement, other than by di-

control of the movement, other than by directing it into channels of large development and usefulness as God opened the
way. While they have been a conserving
influence, we are confident that they have
been and are of open mind and willing
spirit, seeking only the best interests of the
cause of Christ.

We recognize that Christian Endeavor has
been a movement rether than an institubeen a movement rather than an institu-tion. The very simplicity of its organization. The very simplicity of its organiza-tion, its freedom from machinery, com-bined with high character, sober judg-ment and willingness to gain light from every rightful source on the part of the officers and trustees, have done much to lift it to the high position of influence which, in the providence of God, it has at-tained

We believe that the recent council of the trustees of the United Society and presidents of state and provincial unions, in its combination of wisdom gathered from a wide outlook and knowledge gleaned from an immediate contact with the problems of the different states and provinces, was a wise step in the progress of the movement. and that such a council might profitably be a permanent feature in connection with succeeding international conventions.

(Representatives of states not present at the meeting of presidents and trustees also indersement of this statement.)

WRECKED BY A COW.

A Lehigh Valley Train Thrown From the Track. A passenger train on the Lehigh Valley between White Haven and Hazleton, Pa., ran into a cow yesterday aftermoon and the engine and three cars toppled over the ridge of a high embankment. Engineer Wm. Doude received injuries from which he died shortly afterward. Barney Mooney, the fireman was seriouly injured, and more than a score of passengers were badly hurt,

Several of these will die. The most seriously injured are Mrs. R. L. Clark of Ashley and Mrs. John Broduinn of Wilkesbarre, both of whom will probably die. Patrick McCloskey of Philadelrbia, badly crushed about body and legs: may die. Mary S. Bahr of Towanda, face and body severely cut and bruised; condi-tion critical. Samuel Gale, New York, leg and right side badly bruised; J. W. Hoyt, and right side badly britised, J. W. Hoyt, Binghamton, N. Y., legs and arms bruised, F. E. Bychards, Boston, bruised about body; Charles Guider, Baltimore, scalp wounds; Samuel Gale Waski, New York, chest and legs hurt. Many other passengers were severely scalded by escaping steam. The train left Whitehaven at 2 o'clock. At the point there is a very abrupt curve. Right at this point the engine struck a cow and left the track, going over the embankment. It was not running at a high rate of speed at the time, thus averting great loss of life. The cars upon the track toppled over the edge of the precipice. The engineer and fireman were crushed under the wreck. A relief train was sent from Hazleton with physicians to attend the wounded.

CALLED ON MAJOR MCKINLEY.

Ex-Secretary Foster One of Tho Who Went to Canton. Charles Foster of Fosteria, former governor of Ohio and Secretary of the Treasury in Harrison's cabinet, was one of the callers at the McKinley home at Canton, Ohio, yesterday, and he remained over night. He is sanguine over the campaign prospects. He expects much of the active work of the opposition to be done in Chicago, but says the official headquarters will be in New York. The opposition, he says, will force the fighting in the west.
